FluMist Quadrivalent by AstraZeneca

Prebook Deadline: 4/30/26 | Returnability: 20%

FluMist Quadrivalent is an intranasal influenza vaccine. It is the **ONLY** nasal spray flu vaccine available for patients aged 2-49.

- FluMist starts working where the flu typically enters the body: **the nose.**
- Patients 9 years of age and older need one dose of FluMist Quadrivalent each year.

- Patients 2 through 8 years old may need 2 doses of FluMist Quadrivalent, depending on their history of previous influenza vaccination, determined by your healthcare provider.

Ordering FluMist for the first time? If so, please click the link below and fill out an enrollment form to receive Access Vaccines member discounts.
